

**Cell Culture Grade Water  
(CCGW)  
Catalog #0600**

**Product Description**

Cell Culture Grade Water (CCGW) is designed for use in all cell culture and molecular biology applications. It is DNase, RNase, and pyrogen-free and is negative for protease activity. The water has undergone purification via activated carbon, deionization, ultraviolet disinfection, and distillation. This ultra pure water is filtered through a 0.2 $\mu$ m membrane filter.

**Product Use**

CCGW is for research use only. It is not approved for human or animal use, or for application in clinical or *in vitro* diagnostic procedures.

**Storage**

Room temperature.

**Shipping**

Room temperature.
